

**Dear WG4 Members, Dear EpiLipidNET Community,**

Our next WG4 Meeting will take place in ZOOM on December 15th, from 2 pm to 4:30 pm (Paris/Rome/Berlin time).

Meeting-ID: 817 7583 8472 Kenncode: 306358

**In the agenda, we will have:**

**1st point)** a round of introductions (1 slide 1 minute presentation of yourself/your research).

**I would ask all new members who have not yet presented to send me such a slide (!! PPT 16:9 format !!) by December 14th, so I can put together a presentation.**

**2nd point)** on the agenda will be voting on topics for break out sessions, to which we will subsequently add you.

**The aim of finding topics is to initiate “Interest groups” – that are groups that can and should extend beyond the Workgroup setting.**

These groups will pursue, in a self-organized way, that is supported by the Action website, specific goals (grants, reviews, generating expert networks on specific fields and grants...).

We are aware that some ideas that come up here will have initiated in another WG, and it will be important to bring these ideas together.

And Ana Reis will be so kind to suggest one of these topics (The endothelial lipidome) in more detail.

... but also other topics should be suggested to me (please also latest by Dec. 14th) and voted for, and when a critical mass of votes (4 or more) is reached there will be a breakout session.

**3rd point)** will be presentations of IMMINENT and newly announced special issue contribution possibilities, Meetings/Events like the one from Morana Jaganac, the Special Issue “Reactive Oxygen Species as Cellular Messengers in Aging and Age-Related Diseases” in Antioxidants (IF: 6.312; <https://www.mdpi.com/journal/antioxidants>).

**SO PLEASE: Newbies: 1 Slide, All: Suggest a topic for Interest Groups future meetings/SI/Grants to be discussed in a breakout session on 15th – send to me by December 14th MORNING, please.**

We will also update you on some changes brought upon all COST actions on registration for Action/WG for being eligible for refunds, STSM etc...

Thank you and see you soon,

Florian, Egon
