

Non-Scientific Report of a Short-Term Scientific Mission¹

Action number: CA19105 – Pan-European Network in Lipidomics and EpiLipidomics

Grantee name: Thomai Mouskeftara

Details of the STSM

Title: EpiLipidomic profiling of oxidized complex lipids in blood serum of patients with coronary artery disease (CAD)

Start and end date: 15/07/2022 to 15/09/2022

Hi! My name is Thomai and I visited Dr Maria's Fedorova lab for two months this summer in the frame of Short-Term Scientific Mission. I had the opportunity to work with the leading experts in the field, improve my current skills and gain new expertise in lipidomics analysis. During this visit I met young scientists willing to share their knowledge and experience and I build my first professional network. It is a unique experience for every young scientist.
